

RETAIL PRICE LIST (07/13)

Welcome the unique BedAway LiftBed to North America. This space-saving bed stores near the ceiling (less than 18") and effortlessly lowers to the floor. As it nears the floor, legs automatically unfold. When the bed is again raised for storage the legs fold back flush with the bottom of the bed.

The single post attaches to the ceiling with 3 screws (less than 100 pounds of shear force exerted at the ceiling) and 2 screws are used to attach the base to either the wall or floor.

Counterweight material is hidden behind the matching white box to allow for balancing most mattresses, bedding and pillows. A framed slat frame is provided as standard for additional comfort.

A child safety lock is standard as well as a separate safety strap for the ceiling mounting point.

Standard sizes are a Single XL, Double XL, Queen plus a King (2 Single XL with coupled posts). It is available in white. Custom powder coating is available for quantity orders.
