

# Lola Stackable Chairs

## RETAIL PRICE LIST (07/08)

(Bar height available)

A new seating classic has been born with the creation of Lola. The unique plywood shell creates a distinctive design statement with its shapely lines and special aluminum connection between the back and seat shells. The joined shells are then applied to different bases and tandem beams creating the perfect multi-purpose design. Three new bases have been added to this series — five-prong glide, five-prong caster, and cross base. The classic 4-leg base is available as a low volume stacking chair (4 chairs high). Any model is available with an upholstered inside.

The standard chrome accent is also available in several powder coated finishes - black, matte black, silver & matte silver.
